

News and Deals

1. LifeMine Therapeutics: \$263M Series D and E financing for genomically enabled drug discovery | Aug. 19, 2026

VC News Daily reported LifeMine Therapeutics secured \$263M in financing. The clinical-stage biopharmaceutical company is using fungal biodiversity, genomics and AI-enabled discovery to build a pipeline of small-molecule medicines.

HDIG take: Life-science relevance: large growth financing supports a differentiated discovery engine with clinical-stage readouts. [LINK](#)

2. Happy Health: \$75M Series A for AI-powered home-based care and sleep diagnostics | Aug. 18, 2026

VC News Daily reported Happy Health raised a \$75M Series A, and MedCity News confirmed the round from ARCH Venture Partners and OpenLoop. The company pairs an FDA-cleared smart ring, AI analytics and clinical services for at-home diagnosis and care management.

HDIG take: Digital health signal: combines remote monitoring, diagnostic workflow and treatment management in a consumer-grade device model. [LINK](#); [LINK](#)

3. Network Bio: \$50M launch financing for AI-linked biomedical data infrastructure | Aug. 20, 2026

VC News Daily reported Network Bio launched with \$50M in financing. Public coverage described a platform connecting academic biobanks, molecular data and clinical datasets to support AI models for biomedical research, diagnostics and drug development.

HDIG take: Healthcare AI: targets one of the bottlenecks in medical AI, access to curated biological and patient-derived datasets. [LINK](#); [LINK](#)

4. Kynexis Therapeutics: \$46.4M Series A extension for cognitive-disorder therapeutics | Aug. 19, 2026

CB Insights tracked a \$46.4M Series A extension for Kynexis, and the company reported a EUR40M extension bringing total Series A financing to EUR97M. New investor Novartis Venture Fund joined Forbion, Ysios and Sunstone.

HDIG take: Biotech relevance: financing supports Phase 2 completion and registrational preparation for CIAS therapy KYN-5356. [LINK](#); [LINK](#)

5. MaxQ Medical: \$31.5M Series A for transurethral imaging and therapy in prostate care | Aug. 20, 2026

VC News Daily reported MaxQ Medical closed a \$31.5M Series A. The company release said Atlantic Blue Ventures, S3 Ventures and Olympus Innovation Ventures led the round to advance an all-in-one prostate imaging and therapy platform.

HDIG take: Medtech signal: moves a specialized urology platform from prototype toward clinical development. [LINK](#); [LINK](#)

6. Arintra: \$25M Series B for AI-native medical coding and revenue assurance | Aug. 20, 2026

CB Insights tracked Arintra's \$25M Series B led by Define Ventures, with Counterpart Ventures, Endeavor Health Ventures, Peak XV, Spider Capital, TEN13, Y Combinator and Yale Ventures participating.

HDIG take: Healthcare IT: reimbursement automation and coding accuracy remain priority operating problems for provider organizations. [LINK](#)

7. Pixelgen Technologies: \$15.5M Series B for spatial proteomics commercialization | Aug. 20, 2026

Pixelgen announced an oversubscribed \$15.5M Series B led by Flat Capital, with Industrifonden and Navigare Ventures participating. The company is scaling its Proxiome Kit for high-throughput molecular cell architecture mapping.

HDIG take: Life-science tools: spatial proteomics can expose disease biology and biomarker patterns missed by abundance-only methods. [LINK](#); [LINK](#)

8. Ours Privacy: \$15M Series A for HIPAA-compliant healthcare marketing data infrastructure | Aug. 21, 2026

VC News Daily and the company release reported Ours Privacy raised a \$15M Series A led by Lightbank and Health Velocity Capital, with Rock Health and other existing investors participating.

HDIG take: Healthcare data infrastructure: addresses a real compliance and attribution gap for digital health, provider and healthcare marketing teams. [LINK](#); [LINK](#)

9. KaliVir Immunotherapeutics: \$14M Series A extension for oncolytic viral immunotherapy | Aug. 19, 2026

CB Insights tracked a \$14M Series A extension for KaliVir, and the company announced Company K Partners led the financing with SV Investment, Flexus Partners and existing investors participating.

HDIG take: Oncology biotech: proceeds support clinical development of VET3-TGI, an oncolytic immunotherapy candidate for solid tumors. [LINK](#); [LINK](#)

10. Butterfly Learnings: \$6.8M Series A extension for pediatric behavioral healthcare | Aug. 19, 2026

CB Insights tracked a \$6.8M Series A extension for Butterfly Learnings, and YourStory reported the India-based pediatric behavioral healthcare platform raised Rs65 crore led by Inflexor Ventures.

HDIG take: Care delivery: expands center-based and technology-enabled services for autism, ADHD, speech delays and developmental needs. [LINK](#); [LINK](#)

11. LISSUN: \$5M Series A for child-development and mental health services | Aug. 18, 2026

CB Insights tracked LISSUN's \$5M Series A, while Inc42 reported the company raised Rs48 crore led by Colossa Ventures. The platform combines mental health, child-development centers and digital care tools.

HDIG take: Behavioral health: capital supports hybrid care delivery in a market with increasing demand for pediatric neurodevelopmental services. [LINK](#); [LINK](#)

12. SiranBio: Nearly RMB400M Series A financing for siRNA therapeutics | Aug. 20, 2026

CB Insights tracked SiranBio's Series A-II round, and VCBeat reported the Suzhou siRNA developer completed nearly RMB400M across its Pre-A, Series A and Series A+ financings to advance dual-targeting siRNA and extrahepatic delivery pipelines.

HDIG take: Platform biotech: RNA delivery beyond the liver remains a key technical gate for the next generation of nucleic-acid therapeutics. [LINK](#); [LINK](#)

Upcoming Healthcare Events

Date	Event	Location	Why it matters
Sep. 9-10 / Sep. 15, 2026	Baird 2026 Global Healthcare Conference	Virtual / New York, NY	Investor event covering biotechnology, healthcare IT, life sciences and diagnostics, medtech and healthcare services.
Sep. 14-17, 2026	Becker's 11th Annual IT and Revenue Cycle Conference: The Future of AI & Digital Health	Chicago, IL	Becker's healthcare operator meeting focused on AI, digital health, revenue cycle, EHR modernization and health-system technology strategy.
Sep. 23, 2026	Portugal Healthcare Innovation Summit 2026	Lisbon, Portugal	Bamberg Health summit on healthcare innovation, digital transformation, AI, therapeutic innovation, diagnostics and care delivery.
